January 15, 2016

Mr. David Warren, Laboratory Supervisor  
Environmental Analysis South (Lab #660)  
4000 East Jackson Boulevard  
Jackson, MO 63755

Dear Mr. Warren:

Your response to the Missouri Department of Health's evaluation and recommendations made in their December 11, 2015 report of investigation of the bacteriological examination of your laboratory has been received and reviewed. Your response is adequate and the Environmental Analysis South laboratory of Jackson, Missouri, is approved under the provisions of the Missouri Public Drinking Water Regulations to perform bacteriological analyses for the following parameters:

**Total Coliform**

***E. coli***

**Heterotrophic Plate Count**

Enclosed is a certificate of approval and a certified parameter list for your laboratory. Please reference the certified parameter list for parameters, methods of analysis, and personnel that have been approved by the State of Missouri to complete bacteriological testing for public water supplies. Your certification will expire three years from the date of your original expiration date and is contingent upon no changes being made with the approved methods, analysts, or equipment. Please notify this office within 30 days of changes, which occur in any of these specified areas before the December 1, 2018 expiration date.

Sincerely,

WATER PROTECTION PROGRAM
